ATS Basics

- Parses resumes into searchable data for recruiters.

- Matches keywords, skills, education, and experience to job descriptions.

Resume Builders:

- Google Docs: Best compatibility (92%-99%).

- Enhancv: Excels in modern designs, scoring up to 98%.

- Microsoft Word: Results vary; use clean templates.

- Canva: Creative but less ATS-friendly for traditional roles.

Insights

- ✓ Stick to single-column layouts for better parsing.

- ✓ Use platforms optimized for ATS compatibility.

- ✓ Balance structure with recruiter-friendly readability.

Think ATS will reject your resume? Think again.
